University of Independence Classes a Big Hit with Participants

A completion ceremony was held for the University of Independence classes which were hosted by Services To Enhance Potential at the Northwest Resource Center. The classes were made possible through a partnership between STEP and the [Disability Network/Wayne County-Detroit](#). Participants traveled from all over the county to attend the eight week classes which became very popular. The main focus of group discussions centered on self advocacy and communication. As familiar challenges were discussed many new friendships were formed. Everyone enjoyed the pizza and cake which was provided at the ceremony. Plans are being made to continue the series.

A proud and jubilant **Johnnie Passmore** was one of twenty persons who took part in the University of Independence classes to completion.
