

**June 15, 2007**

**STEP, the beneficiary of this year's EST Testing Solutions Care and Share Program, saw the group take on its first project today, providing landscape improvements at the Dearborn North and Western Wayne Resource Centers.**

**The EST group helped planted eight Flowering Crabapples, Malus 'Donald Wyman', along the east border of the Western Wayne's Resource Center's property. The trees were a generous donation from the Gorham and Sons Nursery in New Boston.**

**EST provides quality evaluation and functional testing for the automotive and furniture industries in Michigan. They specialize in imitating real world conditions that simulate what products and systems will be subjected to using reliable equipment and engineering testing services.**

**They may be found on the web at <http://www.est-usa.com/>.**

**Standing: Steve Prange – EST, Elliott Smith – EST, Donald Justice - STEP, Eugene Jones – STEP, Johnie Lockhart – STEP, Darriel Smith – EST.  
Kneeling: David Bourque – STEP, Jeff Swanson – EST.  
Also standing far right: Donald Wyman - Crabapple**
